

宏模块 LPM_COMPARE

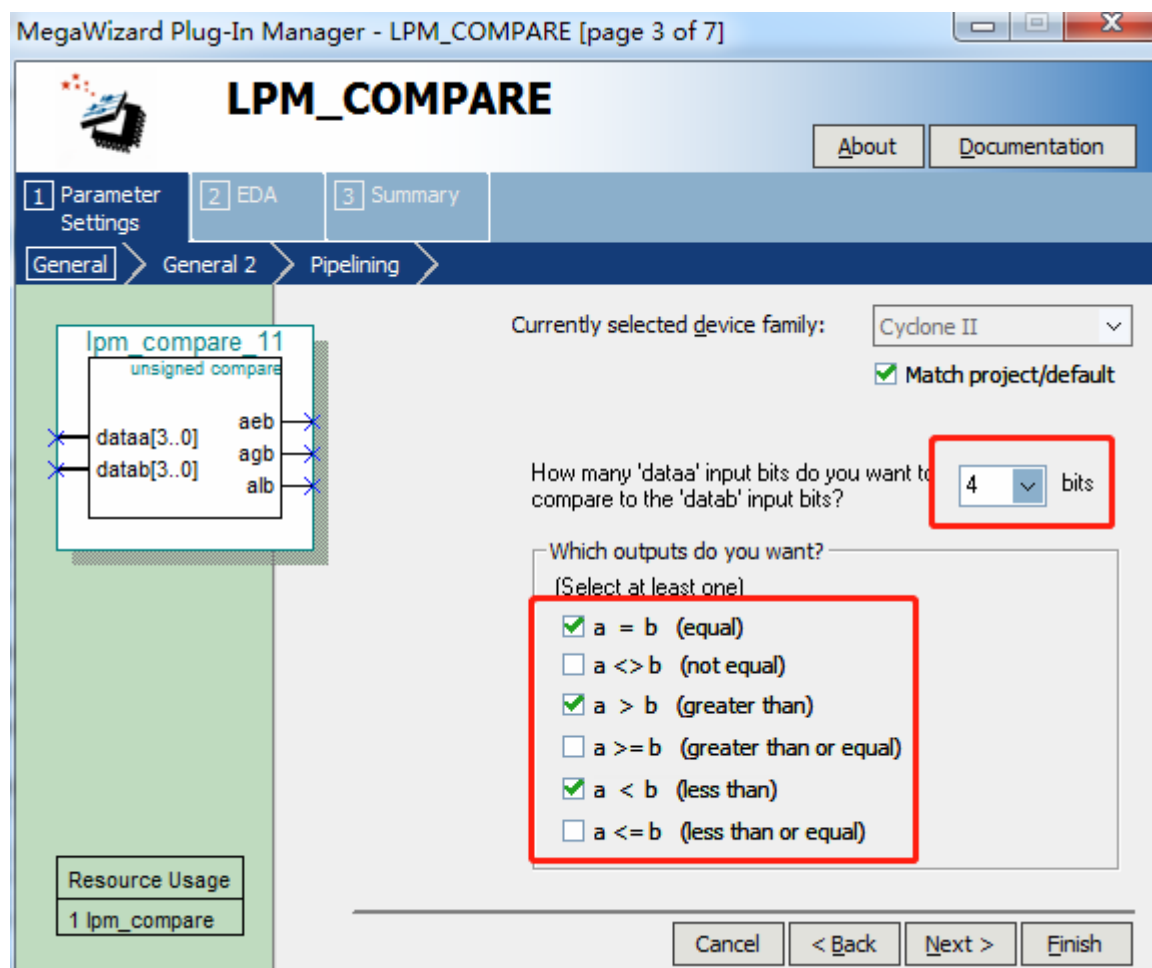

1、在新建的空白原理图文件中，找出 “LPM_COMPARE”

2、对你的比较器进行命名，以示区分

3、对比较器进行必要的设置

LPM_COMPARE

About Documentation

1 Parameter Settings 2 EDA 3 Summary

General General 2 Pipelining

lpm_compare 11
unsigned compare

dataa[3..0] aeb
datab[]=11 agb
alb

Resource Usage
1 lpm_compare

Is the 'datab' input bus value a constant?

☐ No

☒ Yes, the value in decimal is 11 Dec

Which type of comparison do you want?

☒ Unsigned 无符号

☐ Signed

Cancel < Back Next > Finish
